

# Business Art Rotation

Art rotation is a great way to provide a fresh, creative backdrop for your business. It can however, be more work than it sounds. The process involves advertising for artists, viewing portfolios, finding the appropriate work for your space, hanging the work or scheduling hangings with individual artists who may not have the same level of professionalism or respect for your time or space. These are just some of the headaches that come with managing an art rotation program on your own. Artwork Network takes all of this off your plate.

**Wide Selection:** Our online portfolios make it easy for you to choose original artwork from our over 100 member artists. Or you can leave it entirely up to us. We are skilled at choosing work that compliments your decor and is appropriate for your type of business venue.

**Installation and Delivery:** Art is professionally hung at your location at a time that is most convenient for you and will not interfere with your customers.

**Patching and Cleaning:** We leave the space how we found it. We patch walls and clean up after ourselves.

**Sales:** All artwork will be professionally presented and tagged for sale with our contact information. All sales inquiries go through Artwork Network.

**Never an empty wall:** The art will remain for a full 90 day rotation, and new art will be put up immediately in its place. If a piece of work sells we will replace it immediately with a new piece.

**Professional Staff:** Your only contact will be with Artwork Network. You will not have to communicate or coordinate with individual artists.

**Advertising:** Your business will be highlighted on our website as an art rotation venue. We include your location, hours, a link to your website and information about your services. We also photograph the space with each new art rotation and load these photos onto your page. Our website currently receives over 3000 unique visitors per month.

**Rotate artwork without making your head spin.**

Art Rotation Memberships start at \$175/month.
